KEY FEATURES

Comprehensive Project Dashboard

Gain A Holistic View Of All Your Projects In One Centralized Dashboard. And Real-time Updates On Project Status, Milestones, And Critical Data.

Resource Allocation

Optimize resource utilization with intelligent allocation and scheduling. Prevent resource overloading and bottlenecks.

Budget and Cost Control

Track project expenses and budgets in real-time. Ensure projects stay within budgetary constraints.

Task Management

Efficiently assign, track, and manage tasks for each project. Also ensure deadlines are met and projects stay on schedule.

Reporting and Analytics

Generate insightful reports for informed decision-making. Analyze project performance and identify areas for improvement.

INCREASED EFFICIENCY

Streamline project processes and workflows for improved efficiency. Eliminate manual data entry and minimize errors.

SCALABILITY

Grow your projects and business without outgrowing your project management solution. Easily adapt to changing project sizes and complexities.

COLLABORATION AND COMMUNICATION

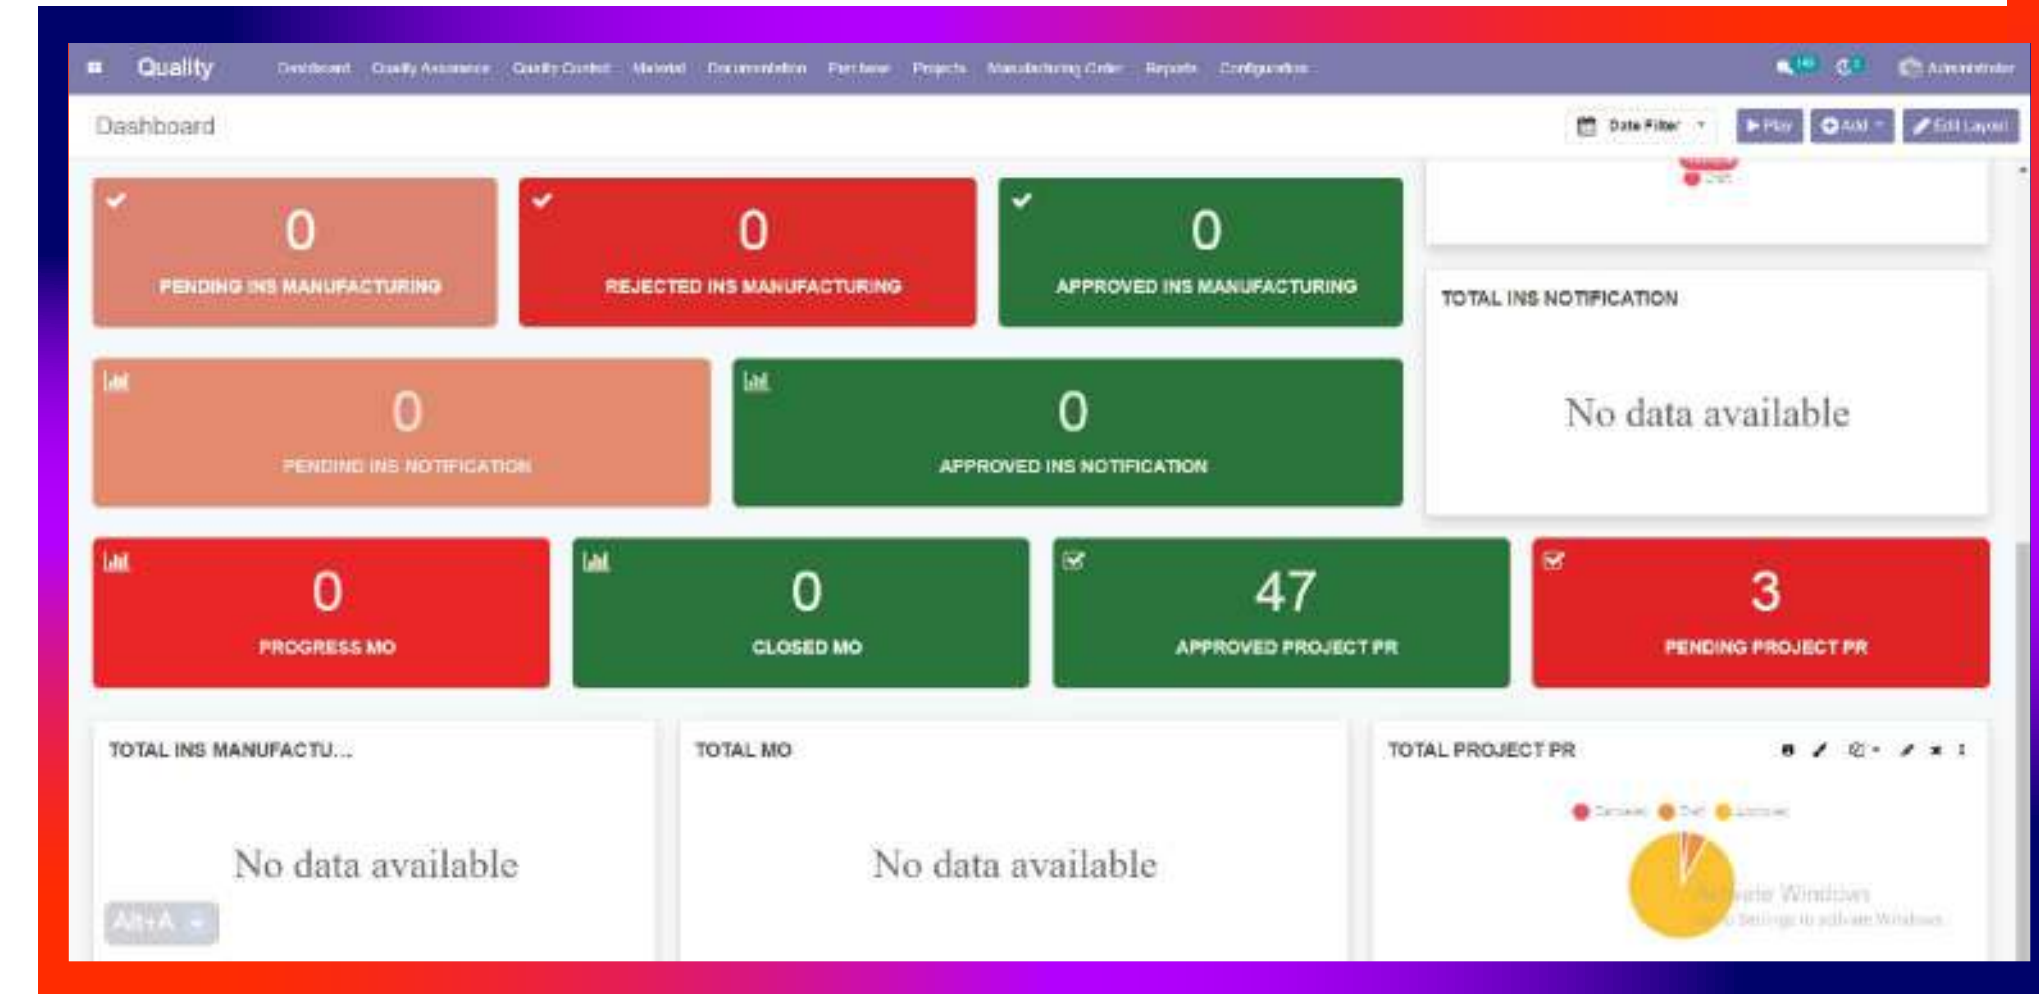

Facilitate seamless communication and collaboration among team members. Integration with popular communication tools for smooth interactions.

ENHANCED PRODUCTIVITY

Empower your team to focus on project tasks rather than administrative work. Minimize downtime and maximize output.

COST SAVINGS

Optimize resource allocation to reduce unnecessary costs. Accurately track project expenses and allocate budgets effectively.

BENEFITS

INVENTORY MANAGEMENT

Real-time tracking and management of inventory levels. Forecasting and demand planning to optimize stock levels.

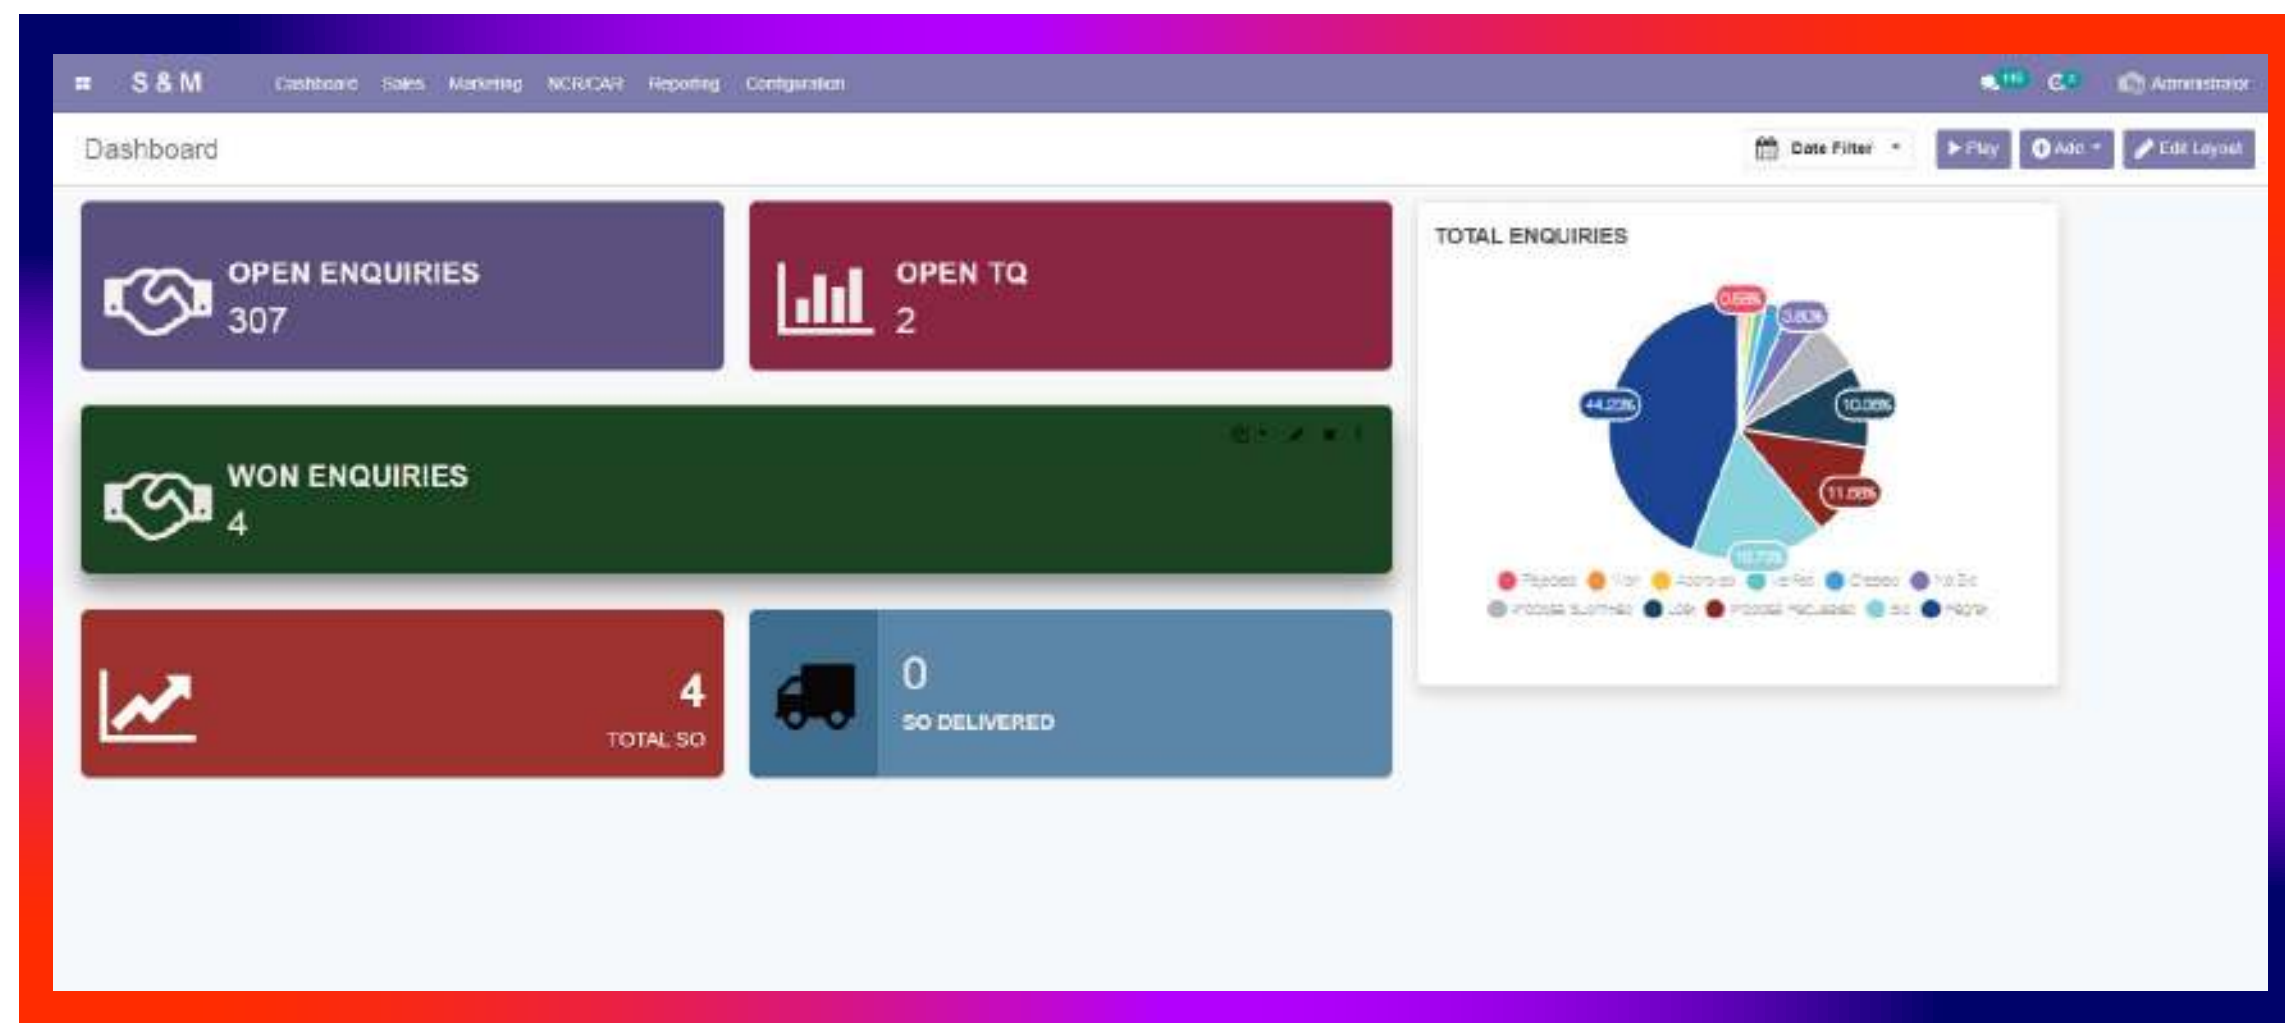

BETTER DECISION-MAKING

Access to real-time data and analytics for better decision-making across the supply chain. React quickly to changes in demand, supply, or project requirements.

IMPROVED COLLABORATION

Enhance collaboration with suppliers, vendors, and logistics partners through integrated communication and data sharing.

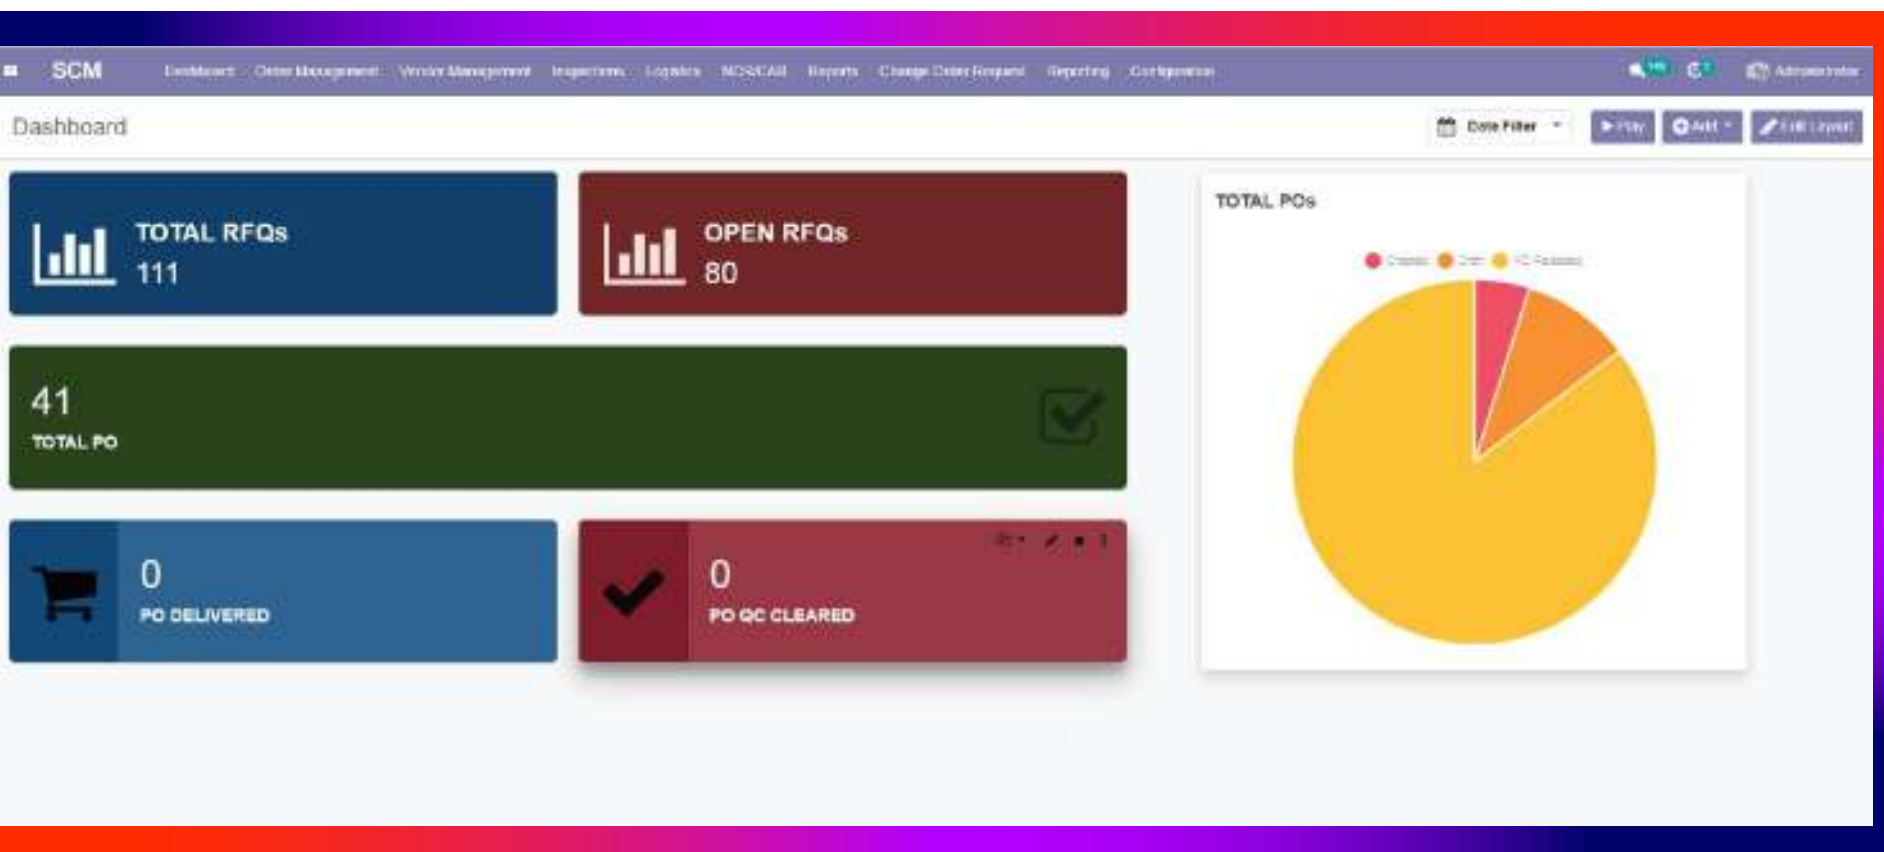

DEMAND FORECASTING

Utilize historical data and trends to forecast demand accurately. Optimize procurement and production planning based on demand forecasts.

ENHANCED PRODUCTIVITY

Empower your team to focus on project tasks rather than administrative work. Minimize downtime and maximize output.

➤ **BID CREATION AND MANAGEMENT**

Create, edit, and manage bid invitations for procurement needs. Define bid details, requirements, deadlines, and evaluation criteria.

➤ **INTEGRATION WITH PROCUREMENT AND PURCHASE MANAGEMENT**

Seamless integration with the procurement module to convert awarded bids into purchase orders.

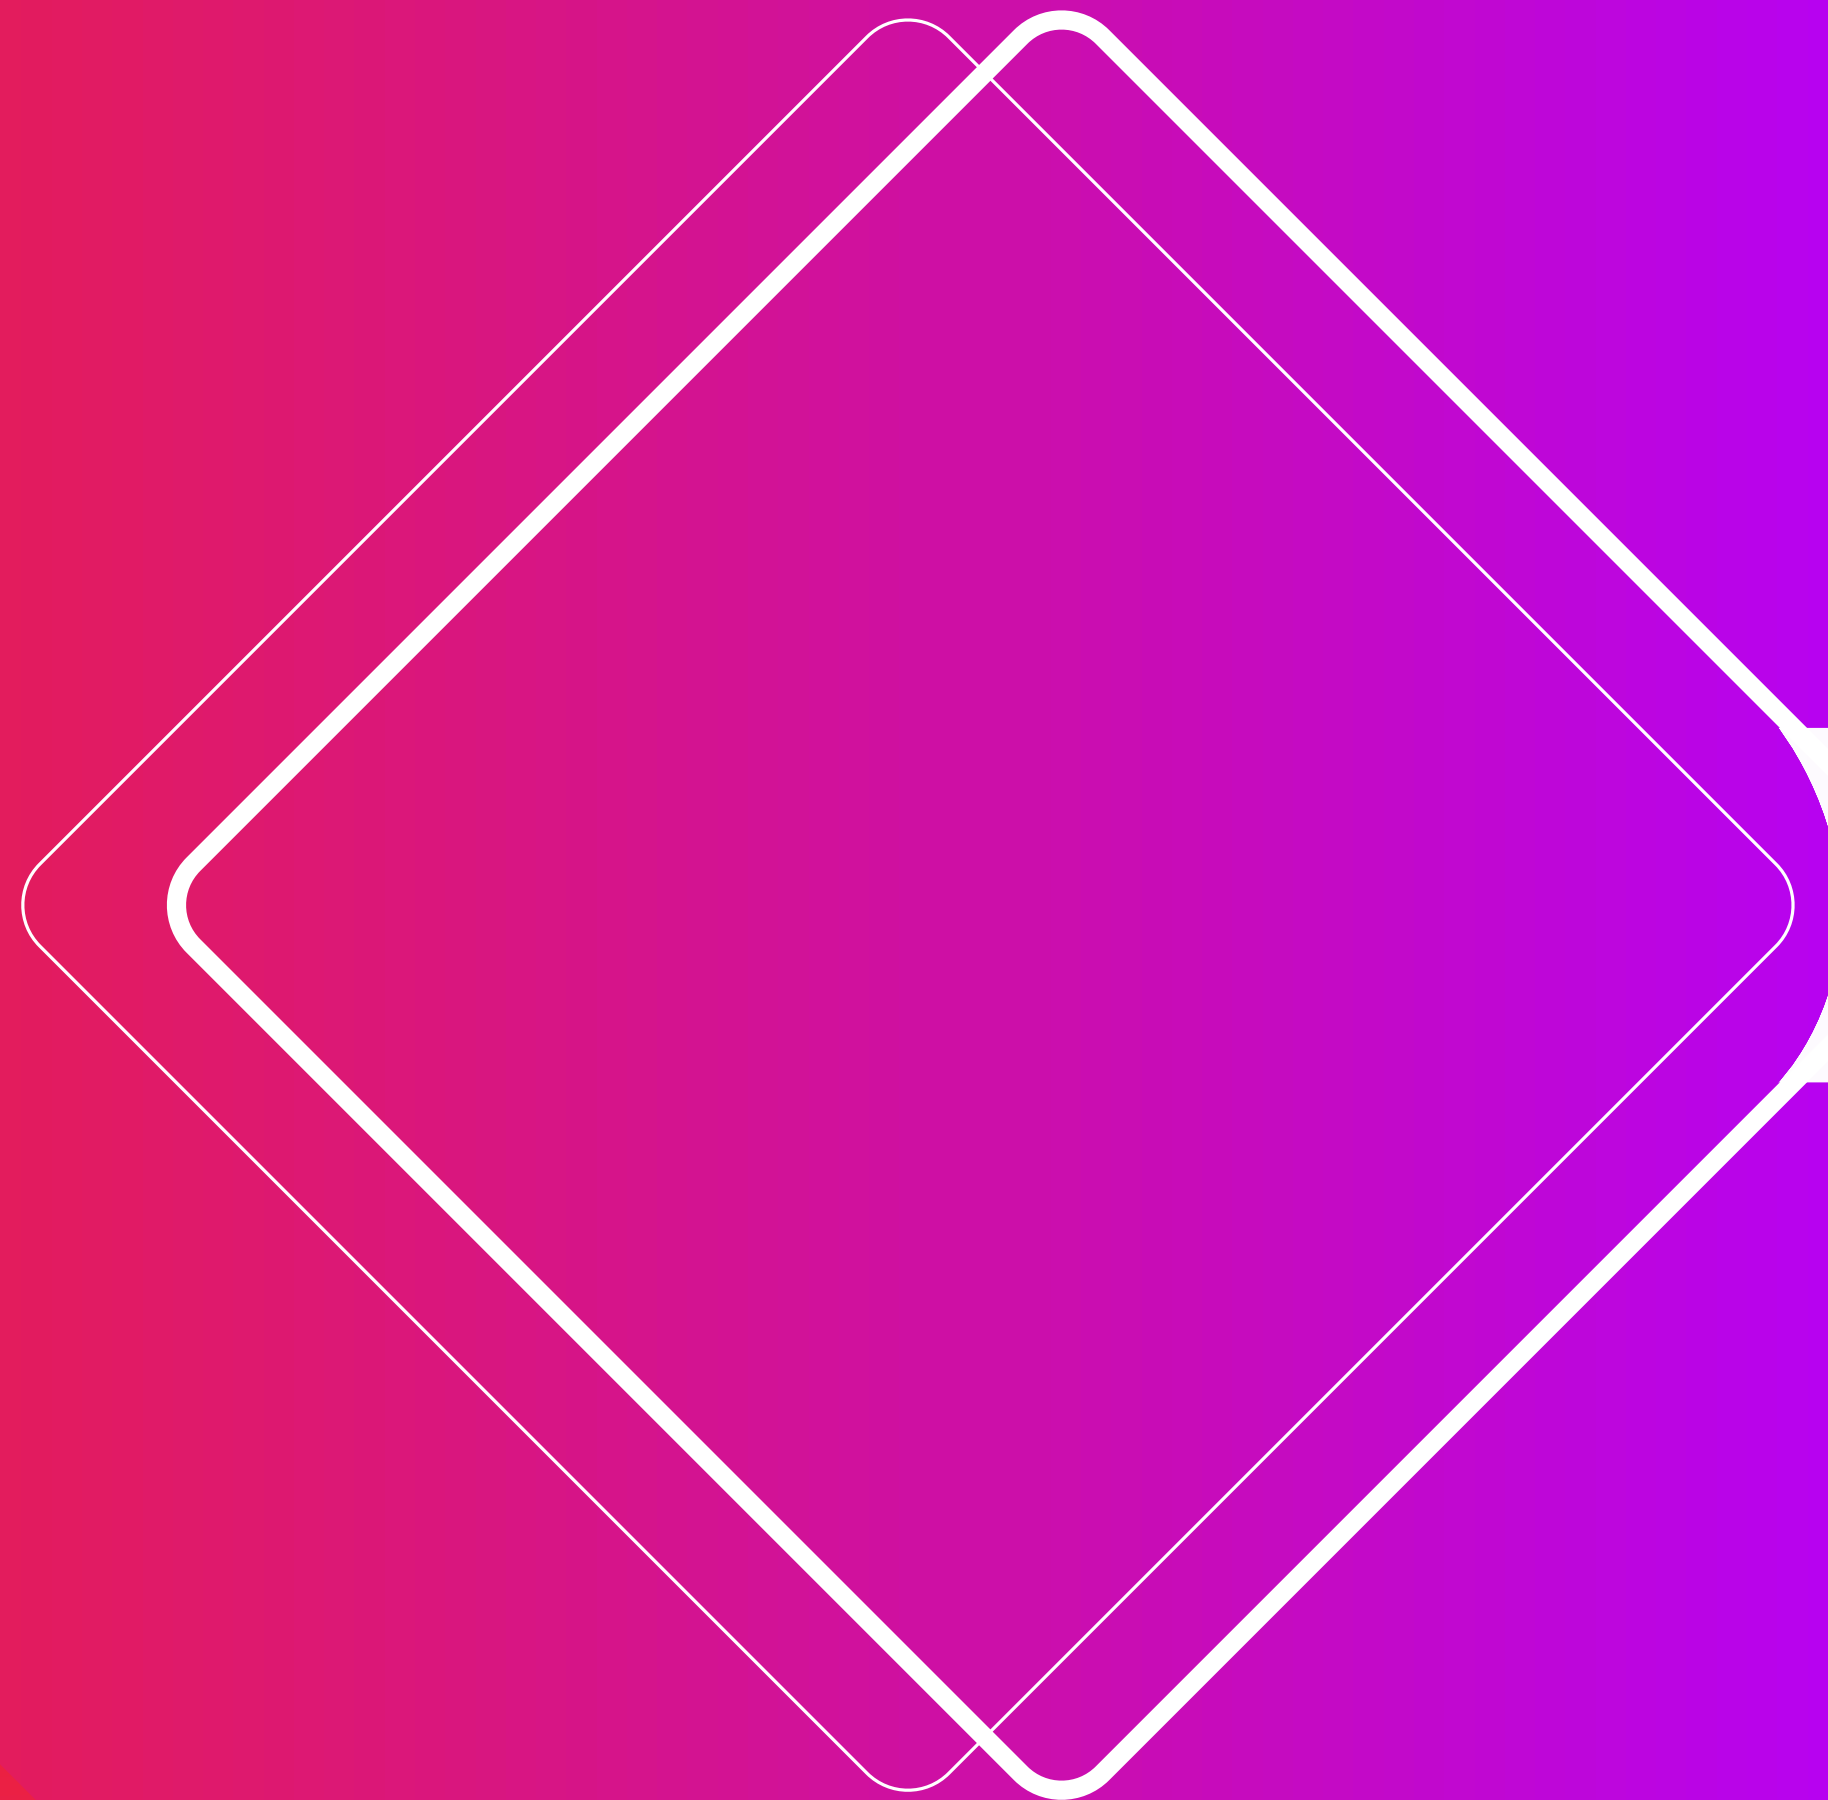

➤ **EFFICIENCY AND TIME SAVINGS**

Streamline the bid management process, reducing the time required to manage bids and select vendors.

The screenshot displays a detailed view of an RFQ for item 80230070. It includes a table with the following columns: S. No., Material Code, Site, Long Description, Unit, Quantity, PR Qty, Remark, and RFQ Scope. The table lists various materials such as flanges, gaskets, and bolts.

S. No.	Material Code	Site	Long Description	Unit	Quantity	PR Qty	Remark	RFQ Scope
1	50400034	FLG.	FLANGE, BLIND, RING TYPE JOINT, 1 1/2 IN, 1000	NOS	22.00	22.00		
2	50100035	FLG.	FLANGE, BLIND, RING TYPE JOINT, 2 1/2 IN, 1000	NOS	3.00	3.00		
3	50400039	FLG.	FLANGE, BLIND, RING TYPE JOINT, 5 1/2 IN, 1000	NOS	3.00	3.00		
4	51500033	GB.	GASKET - OCTAGONAL RING, 5X15, 1 1/2 IN, 10	NOS	88.00	88.00		
5	51500034	GB.	GASKET - OCTAGONAL RING, 5X15, 2 1/2 IN, 100	NOS	8.00	8.00		
6	51500035	GB.	GASKET - OCTAGONAL RING, 5X15, 3 1/2 IN, 1000	NOS	8.00	8.00		
7	02000096	S9E.	BOLT - STUD (1 NO) 3/4 IN UNC X 142 MM LONG, FU	NOS	200.00	200.00
